There is uniqueness in friendships this month. Reconnect with old friends and be open to the cultivation of new friendships. Don't pick and choose. Rather stay open and let others pick and choose you. You may pull in some questionable characters.

But they come as teachers even though they aren't aware of their role. Additionally, open up to group activities. You may find yourself acting as a leader. Use the golden rule now. Love unconditionally and remember, to feel loved you must love. You will receive accolades from those you do love.

Ask any artist how to paint and they will tell you first to back away from the canvas and second to find your perspective point. Your perspective point is now found in backing away from the everyday grind and having good old down home philosophical discussions with many people.

Be sure to choose to talk with some experts. You can't learn too much now, see too much or travel too far. Your mind is like a central switchboard until June. You are on a quest for truth. What you find are the colors and hues that fill your life canvas. Nice.

Child Protection Spell

Color of the day: Yellow

Incense of the day: Marjoram

Many people find sending their kids back to school to be a scary time for both parents and children. Before you send them out into the world, do this protection spell (if you want, you can have the child do it with you - otherwise, use a picture). Anoint the picture of the child with a protective oil like sage, rosemary, or juniper and/or sprinkle with salt and water and smudge with a sage bundle. Visualize the child surrounded by a protective white light and say:

"Safe and protected, this child will be
Until he (she) returns to me
Goddess our mother, watch over my child
With loving heart, both fierce and mild
Keep him (her) safe from threat or harm
With the power of this charm."
